June 1922

THE PARTY By Emily C. Lieman Little did I think that day in February that so many of them would obtain perfect sight so soon. But Saturday, April 22nd, the party was held at our advences offices in New York City, Immember about six years ago as Dr. Bates and I passed by some of these people on the street near the hospital, he numerical, "I wish I had some of the dignity of these coloned people; I wonder where they get as the money to discs so well." There of the cinear was are than, then of then expell anny beams the high plane (special and the high plane) and the high plane (special and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane (special and the high plane) and the high plane) and the high plane (special a Right in the solids of our line, though, two persons collected for an intensive with Dr. Bane. There he was, a bey all over again, playing parker games and lengthing benefity with the ideal not not up the land are a case in the world. I all resed the visions who came each a long distance to so line, to have only fine who was the address of the first this research.
