THE ESECUTION AND CONTROL OF PAIN BY THE MID

Asyone who has normal vision can dominism to in a few moments that when the memory is perfect no pairs is felt, and can produce pain by an attempt to keep the attention fixed on a point. To do this proceed as fulfo

Look at a black letter, close the eyes and remember it. Look at the letter again and again close the eyes and remember it. Repeat until the memory is equal to the sight. New press the sail of one farger against the tip of another If the letter is remembered perfectly, no pain will be fish. With practice it may become possible to remember the letter with the eyes upon.

Remember the letter imperfectly, with blurred edges and clouded openings, and again prove the sail of one linger against the rip of another. In this case it will be found impossible to continue the pressure for more than a moment on account of the pain.

The technical continuously or one point of a latter or other object. If the office is continued lane arounds again will be resolved.

At her first visit her gain was milesed by guitning, and her vision improved from 570 to 590. She was so plaused that the smilled and kined my hands. The pain had made her sick at her contach more of the time, the said, so that the was often smaller to retain her food, and no day was the ever free from it

I fold her to continue the palming at home, and to keep it up for an home at a time whenever possible. For a while she got on very sixely, Her vision improved to 10/40, and whenever the fift the pain coming on the palmed, invariably obtaining saled.

Then came a day when I found her with turns in her eyes. She had had a skepless night, the explained, and had suffered so immosely that her family went frightnessel. Her eyes felt as though sand was pooring out of them cannot be pillow. I asked her if ther eyes went will paining her, and the amentered nutritally, "Vor".

When I last saw her, six months ago, her vision was 10 10 without glasses, and she had no pain.

BACKACHE CURED BY CENTRAL FIXATION

By Ressie T. Brown

The editor is much placed to be able to publish Mrs. Revenir upon of the circulassesses will of the adaptaceness and the backacke from which the half cofficed to long. It was from her he learned the value of courted function in relieving pain in port of the body other than the head and you, and the takes group placesses in giving her credit for the discovery.
