May 1923

The fatal improvious left in the minds of those present was that teachers can do a really big work by improving eight and preventing eyermin so that their children need never have glasses prescribed. SPECIAL SPEAKER FOR MAY MEETING GERMANY PAVES THE WAY FOR PERFECT SIGHT IN NEXT GENERATION By M. E. Marsin The Question Mark

Aneseer—Without personal supervision, catazacts are very hard to cure. Would advise his coming to New York. I can cure him. In the meantime, read the chap

Agency—Read Chapter XVII in the book. Do not gaze into the sun but at each side of it abenuasly. In this way you not only swing it, but allow the rays to shine on the eyes. This
